

Activity Guide - AI Remix Challenge

Part 1: Develop Creative Content

You've been selected as the student intern responsible for managing your school's official social media account. Your job is to help promote events, celebrate achievements, and raise awareness about important issues — in a clear, respectful, and engaging way. You'll collaborate with an AI assistant to help plan, write, or revise social media posts.

1. Select a category and choose one of the example options.

Category	Example Options
School Event Promotion	- Write a post announcing and hyping up an upcoming school play, sports game, or dance. - Create a series of posts highlighting Spirit Week themes and how to participate. - Come up with your own school event idea - perhaps there is one actually happening at your school soon!
Celebrations & Recognition	- Recognize student or teacher achievements ("Shout out to our robotics team for..."). - Celebrate a holiday or cultural event with inclusive language and respectful tone. - Come up with your own school celebration or recognition idea - perhaps there is one that makes sense to highlight at your school soon!
Educational or Awareness Campaigns	- Raise awareness for an issue like bullying prevention, attendance, or digital citizenship. - Explain how students can access school tech tools or homework help platforms. - Come up with your own school educational or awareness idea - perhaps there is an issue you want to bring awareness to at your school!
Outreach & Recruitment	- Create a "Why You Should Choose Our School" post aimed at incoming 6th or 9th graders. - Highlight clubs or programs (e.g., "Here's why you should join our coding club"). - Come up with your own school outreach or recruitment idea - perhaps there is one actually happening at your school soon!

Round 1: You = Pilot, AI Chat = Co-Pilot

Write a social media post: Based on the category and example you chose on the previous page, write a social media post.

Record your social media post in the box below.

Revised Social Media Content: Go to Level 2 to input your social media post into AI Chat and get suggestions for improvement. Revise and record your creative writing piece below.

Round 2: AI Chat = Pilot, You = Co-Pilot

Prompt AI Chat: Go to Level 3 and prompt AI Chat to write the **same social media post in Part 1** (e.g. "Write a post hyping up an upcoming volleyball game against our rivals the Coyotes.").

Record AI Chat's initial social media post below.

Revised Social Media Content: Follow the instructions on Level 3 to prompt the AI to revise its output. Record AI's final version of the social media post below.
