AI Audit - Activity Guide

AI Bias Analysis

Original Prompt:

Observations:

AI Response	Bias Identified
Why Might This Bias Exist	How To Reduce Bias

Refined Prompt:

AI Audit Challenge

Reviewing Profiles

Go to Level 3 and choose one of the sublevels (circle your selection below). Read through the descriptions of the six people and select two of them. The sublevels are:

- Sublevel 1: Hospital Triage Nurse
- Sublevel 2: College Admissions Officer
- Sublevel 3: Software Engineering Hiring Manager

Your Selections

1. Which two people did you select?

2. What qualities or information did you prioritize?

AI's Selections

Now move on to Level 4 and choose the same sublevel as you did in the Level 3. Prompt AI to make its selections based on the information you provide.

3. Which two people did AI select? Did this match who you chose?

4. What qualities or information did AI prioritize?

Refining AI's Selections

In Level 4, refine the prompt to make AI prioritize the same qualities that you did.

5. When you told AI which qualities to prioritize, did its selections change? Why or why not?
